Vide Paras 587 to 604 of the P. W. A. Code.

- 1. The cash Book contains two money columns, head (1) "cash" and (2) "Treasury" on the pay ment side for distinguishing between payments made by cheques and those made out of the cash in chest. When, however, a cheque is drawn to replenish the chest, its number and amount should be entered on the payment side in the "Treasury" column Nos. 11 and 12 and the amount only on the receipt side as "cash from treasury" in the "cash" column No 4. The amount of a cancelled cheque should be shown by a special write back entry, as a minus figure on the payment side in the "Treasury" column as laid down in paragraph 572 of the Code.
- 2. Every entry must be concise. The date, the number of voucher if any, the name of the work, and such a brief narration as will unmistakably indicate the nature of the transaction must be entered against each item. The amount chargeable, or creditable to each separate work, head of account or contractor or other person should be separately entered, and the amounts to be posted by the Divisional office into the Abstract Book or Schedules of account under each prescribed head of account should be distinctly brought out opposite the entries in columns 6 and 12 headed "classification of Receipts" and "classification of charges". No receipt or payment other than of "cash" as defined in paragraph 514 of the code should be entered in the Cash Book.

Nors 1:—A deduction made at the time of payment creditable to a work or head of account other than that to which the payment itself is chargeable should however be entered on the receipt side of the Cash Book.

Nors 2:-All refunds which the Divisional Officer decides should be credited to "Refunds of Expendature" should be so noted in the Cash Book in column 6 "classification of receipts" the head to be credited such as "Originial Works" "Repairs" being also entered in the same column below the works-"Refunds of Expenditure". The entry in the Cash Book should also be lear so as to show the name of the work on account of which the refund is made. But only bona-fide cash recoveries should be entered in the Cash Book. Fines. for bad workmanship or other deductions, such as for security or according to tenders of contractors which are made before payment of their bills or un-paid wages of their workmen should not find a place in the cash book. The amount of such deduction entries should be recorded in the Day Book or the contractors certificate or bill and the . net amount of the payment only entered in the Cash Book.

3. Transactions must be recorded at the time and on the date on which they actually occur and strictly in the order of occurrence. If however, owing to the absence of the disbursing officer ou tour, a cheque issued by him, whilst in camp is entered in the Cash Book maintained at his head quarters on a subsequent date, the actual date of issue of the cheque should be noted in the Cash Book as the denominator of a fraction the numerator of which

Division

Sub-Division

Cash Book.

will be the date on which the transaction is incorporated in the Book. A similar proceedure should be observed when the double transaction relating to the realization of miscellaneous cash receipts by a subordinate and their payment directly into treasury is incorporated in the Cash Book of the superior disbursing officer on receipt of the receipted chalan of the treasury from the subordinate, as prescribed in paragraph 578 of the Code.

- 4. It is a serious irregularity to draw cheques and deposit them in the cash chest at the close of the year for the purpose of showing the full amount of grant as utilized or to keep the Cash Book open after 30th of Aban and make disbursements in Azoor entering them in the Cash Book as having been made in Aban.
- 5. Acknowledgments of payments should, as far as possible, be taken at the time of payment and on one of the printed forms prescribed for the purpose. They should be numbered in a separate series for each month and the serial number of each Voucher should be entered in the Cash Book as soon as the payment transaction is entered therein.
- 6. When an imprest is first given, the fact should be noted in red ink, in the Cash Book of the disbursing officer giving it, in the column "To whom paid"; last amount should not be taken credit for as an actual payment, as it will still form a portion of the Cash Book balance of the disbursing officer making the advance. If, however a cheque is drawn its amount must be shown on both sides of the Cash Book Vide note 1. Any subsequent increases or decreases in the amount should be similarly noted, the increases on the payment side and the decreases on the receipt side.
- 7. In posting transactions from imprest accounts, the recouping disbursing officer should enter in his Cash Book only the total for each work or head of account as brought out in the abstract, which should be prepared in his own office, on the reverse of the imprest account.
- 8. All payments must be charged off at once to the work or service on account of which paid, Money advanced to a subordinate for disbursement to labourers and at a distance should be noted in the Cash Book in red ink as a temporary advance, in the manner followed when regular imprests are first made; and when the subordinate returns the duly certified muster rolls etc. with the unpaid wages, if any, the amounts actually paid should be charged off to the works or services concerned, the amount unpaid being returned into the cash balance. Assimilar procedure should be observed when the disbursing officer removes cash from his chest and takes it with him on tour for making payments.
- 9. The procedure for dealing with time expired cancelled and lost cheques is prescribed in paragraphs 571 and 572 of the code.

10. The cash balances at end of the month should be detailed thus in a note at foot of the cash book:—

Cash in chest Rs	. 7-9-5
Imprest with Mr. R. Johnson	100-0-0
do Mr. Abdur Raheem	50-0-0
Total cash balance as above	157—9—5
Bidar treasury	1000-0-0
Warangal treasury	700000
Total Treasury Balance	800000

11. Cash Books should have their pages machine numbered. As far as possible, no lines should be left blank, but if any space on a page of the Cash Book has to be left blank owing to the whole of the other page of the same folio being completely written up, a diagnol line should be drawn to cancel the blank space, so that it may not be possible to make any subsequent entwies therein. Interpolation of entries should be avoided as far as possible, but when it becomes necessary to make any entries between two ruled lines or to make any additions to or interpolations between entries already made, such additions should invariably be attested by the dated initials of the dispursing officer.

N. B — This abstract will be printed at the back of each form and should be filled in by the Sub-Divisional Officer when the imprest holder receives funds from him and in other cases by the Divisional Accountant.

(Vide Paras 746 & 747 of the P. W. A. Code)

- 1. This form should invariably be used when it is necessary to give a receipt for money received on behalf of Government.
- 2. No officer under the rank of Divisional Officer or Sub-Divisional Officer in charge of a territorial Sub-Division who has a drawing account may issue these receipts' unless specially authorised by Government.
- 3. Receipt books will be issued by the Examiner from time to time on indent. They should be treated as earefully as cheque books and kept under look and key in the personal custody of the responsible Officer.
- 4. Applications for refunds should, as a rule, be entertained only when supported by the presentation of the receipt originally given. The receipt should be checked with the counterfoil and the entry in the cash book and accounts; a reference to the repayment should be written across the counterfoil in red ink and a note made in the cash book against the entry of receipt, so as to prevent a double payment, and the receipt, should be destroyed by the disbursing officer. Without the production of the original receipt, a payment should not be made by a subordinate officer except under special orders of the Divisional Officer.
- 5. In all cases a receipt, stamped when necessary, must be obtained for repayments.
- 6. Before a receipt book is brought into use the following certificate on the cover should be signed:—

"The receipts in Book No.-are complets and in consecutive order."

7. Books in which all the receipts have been used should be filed in the divisional offices

P. W. A. FORM No. 4.

(Vide Paras 759 of the P.W.A. Code)

- 1. Cash receipts realized by Divisional Officers are not available for expenditure, but must be paid into the Treasury to the credit of "Public Works Department" as soon as possible after realization.
- 2. All payments made into the Treasury will be entered in the Remittance Book (Form No. 4) which should accompany the remittance with a chalan. This book must be signed by the Accountant and Treasurer, also by the Treasury Officer when the remittance is for sums of Rs. 500 and over. The chalan will be retained by the Treasury and the book returned to the Divisional Officer. The latter officer will retain the book in his possession but will attach the consolidated receipt to his monthly Accounts submitted to the Examiner as a voucher for the payments into the Treasury.
- 3. Divisional Officers are strictly enjoined not to enter in the book any particulars other than such as the form provides for and not to furnish treasury officers in this or any other shape with information regarding the service from which they derive the receipts which they remit to the Treasury. Cempliance with demands for such information leads to much confusion in the accounts.

P. W. A. FORM No. 5.

NOTES

[Vide para 165 of P. W. A. Code.]

1. Each officer in charge of a cash chest must himself count, on the first working day of each month before any disbursement is made, the cash remaining in his chest and will then fill in Form No. 1 with the exact description of his cash balance. The return will then be at once despatched to the Divisional Engineer. The divisional cash balance will also be verified at least once a month and if possible more frequently but there is no occasion for the Divisional Engineer to be himself present at the count required on the first of each month, it will be sufficient if at the earliest possible date, subsequently, he verifies the accuracy of the office copy of the cash balance statement, which must be filled in and filed in the Divisional Officer's office by the officer counting the cash. As soon as all the Sub-Divisional balance reports are received the divisional accountant will at once abstract them in Form No. 51.

- 1. Where stock is drawn from a source not directly subordinate to the indenting officer, this form of indent should be used.
- 2. The indenting officer will fill in the indent specifying the work or service for which the articles are required, or forward it with the blank invoice and return both to the indenting officer with the stock supplied. The latter will receipt the invoice, return it to the Supplying officer, and paste the indent to its counterfoil.
- 3. The materials account which accompanies the day book will be posted from the complied with indents, and the invoices, will be the vouchers of the Supplying officer's account of daily receipts and issues of stock (Form No. 6).

NOTES.

(Vide Paras 192 to 194 and 204 to 207 of P.W.A. Code.)

- 1. This form is posted, so far as regards quantities from the abstract in Form No. 8, and as regards values from the several day books of manufacture, (toutract accounts, bills, etc.
- 2. The responsibility of the Sub-divisional officer in regard to these returns is usually confined to recording the *quantities* correctly. The money values are all filled up in red ink in the Divisional Officer's office.
- 3. The entries under the Sub-head "Manufacture" in Forms Nos. 9 and 10 will require particular care.
- 4. Since "Manufacture" is a sub-head of Stock like "building materials," "fuel" etc., it is evident that articles of stock, such as fuel, etc., issued to manufacture, should sprear once in Form No. 10 as an issue under the sub-head "fuel" and again in Form No. 9 as a receipt under the sud-head "Mauufacture."
- 5. Similarly articles, such as bricks, etc., outturned from manufacture should appear once in Form No. 10 as an issue under the sub-head "Manufacture." and again in Form No. 9 as a receipt prider the sub-head "building materials,"
- 6. It follows from the foregoing that the entries on both Dr. and Cr. sides under the head "Stock" in the Stock account Form No. 73 will always agree.
- 7. Form No. 9 (Monthly abstract of stock received) will be completed by adding the cash payment on account of manufacture as shown in the various "Day books of expenditure on manufacture," The total thus arrived at including the cost of purchases and carriage of cost, should agree with the amount debited to stock in the monthly accounts.
- 8. It should always be borne in mind that all articles of stock purchased during the month, whether paid for or not, should be brought on the stock returns, the account of "purchases" being expressly provided for the record and adjustment of items either purchased on credit or paid for before receipt.

(Vide Para 795 of the P. W. A. Code.)

- 1. This return is posted, as regards column No. 6 "balance brought over," from column 21 of the last return, and as regards the monthly receipts and issues from Forms Nos. 9 and 10.
- 2. It will be found convenient to have complete list prepared of all articles usually kept in store in each division, and to have the names printed in the order given in the lists on slips to be pasted in col. 3, "Name of article."
- 3. The daily transactions of stock will be entered in Form No. 8 by the store-keeper, the monthly totals being worked out and entered regularly in Forms Nos. 9 & 10 and thence into this return punctually at the close of each month. If this is done, the Officer will be in a position to know the state of the account of any particular article at any moment, and, at the close of the half year, there should be no cause for delay in submitting the return to the Divisional Officer for check. In respect to the nomenclature, etc., of articles, attention is drawn to P. W. Account Code.
- 4. The return is completed by filling in the "Details" of receipts and issues and the particulars of all articles entered in the columns "Receipts" and "Issues."
- 5. A Certificate in the following form, signed by the officer in direct charge of the articles, should be given on the last page of the return:—

Certificate.

Cortified that, with the exceptions noted against the articles shown in this return have, during the year ending.........F. been counted by me or the undermentioned officers.

NOTES.

[Vide Paras 207 to 213 of P. W. A. Code.]

- 1. The half yearly stock register (Form No. 12) resembles in form the half-yearly balance return submitted from sub-divisions (Form No. 16), but it has additional columns to show the "value at current rates," the value adjusted to coincide with amount of stock shown in the "stock account" and the "market rates."
- 2. The register is posted in the Divisional Engineer's office as regards quantities month by month from the monthly statements of receipts and issues (Forms Nos. 9 to 10). The monthly posting is necessary to ensure the return being closed and submitted to the Examiner without unnecessary delay at the end of the half-year.
- 3. The value and rates of articles are then adjusted to coincide with the balance as shown in the stock account form No. 78 Part I, as explained in para below. Any great differences between the "current rates" and the "future rates" will require to be investigated and explained. In the column first named the rates at which stock was issued during the half-year to which the return relates should be entered, and the value of several articles in store worked out appording to those rates. In the column future issue rates" the rates should be so regulated (subject of course to the general condition that all stock rates are bona fide market rates) that the aggregate of the value of the various articles will work up to the amount at debit of the respective sub-heads of stock as shown in Part I of the stock Account.
- 4. The "market rates," being the rates at which articles of a similar description can be purchased or manufactured in the public markets, are filled in the return for the 31st Ardibehist of each year, and when there are serious differences between the book or future issues rates and "market" rates, the cause of such differences should be investigated and explained, and proposals should be submitted for their adjustment. The rates at which materials are to be kept on the stock lists of Divisions should not be allowed to exceed the rates at which such materials can be procured in the open market. All sums requiring to be removed from the stock'account to enable this to be effected should be removed and charged to When stock has been collected for current work. specific works, and in consequence of delay or change of intention in carrying them out that stock has deteriorated or there is no real market or use for it, the loss resulting therefrom should be charged to the works concerned under a distinct sub-head, in addition to the usual or normal sub-heads of their estimates.
- 5. The register should be closed and submitted to the Examiner, as soon as possible after the end of the half year.
- 6. It should be borne in mind that officers of the P. W. D. are personally responsible for articles shown in the returns submitted by them, and particular attention should be paid to the custody of the stores, to their being periodically counted, and to prompt enquiry and report of all cases of missing stores.
- A certificate in the following form signed by the Divisional Officer, should be added in the last page of the register:—

Sub-Division—	
Half-year ending	
	===
Half Yearly Stock Register.	
•	
No	F.

DIVISIONAL OFFICER.

DIVISION.

Division-

CERTIFICATE.

I hereby certify that I have scrutinized the future issue rates of stock as shown in this return, and, with the exceptions explained in the column of remarks, found them to be not in excess of the market rates, and I have duly brought to notice all cases in which charges to work on account of deterioration or losses of stock are likely to be found necessary.

I also certify that stock of the articles shown in this return has been taken during the year ending

F. by the undermentioned officers with the exception noted.

Stock of ____sub-division counted _____, of ____, by.........

- 8. The following examples will be sufficient to illustrate the necessity for effecting these adjustments periodically:—
- (a) Suppose that on 1st Khurdad there were 80,000 bricks in store, value Rs. 400 the rate to cover this value would be Rs. 5 per 1,000, and that rate would probably be fixed for issues during the ensuing half-year. Suppose that they were purchased during the half-year:—

				\mathbf{Rs}	A.
30,000 bricks at Rs,	5,3 per	1,000	,	155	10
10,000 ,, ,,	5 "	1,000		50	0
This would make 120	0,000 b	ricks va	lue	605	10
If the issues during	the hal	f-year w	70 re		
98,000 bricks at Rs				490	0
There would remain? While at the current				105	10
be only		•••	110	110	0

An increased rate had to be paid in this case to ensure immediate delivery of the bricks which was necessary and was not due to a rise in the market rate, the loss of Rs. 5-10 at the close of the half-year would therefore be adjusted against some profit under stock, or by debit to works and the stock rate would still continue to be Rs. 5 per 1,000.

Assume that the market rate rose in the following instance:—

30,000 bricks opening balance at Rs. 5	
per 1,000 —	400
60,000 bricks issued in Khurdad a	t
Rs. 5 per 1,000	300
10,000 bricks purchased ,, a	5 "
Rs. 5 per 1,000	. 50
-	-
80,000 bricks balance at close of	Rs.
Khnrdad at Rs. 5 per 1,000 -	150
30,000 bricks purchased in Thir	
at Bs. 5-8 per 1,000	165
-	-
60,000 bricks value	315

P. W. A. FORM No. 12.

The issue rate would now (in Thir) be made Rs, 5-4 per 1,000. "Current issue rate" in the stock register would continue Rs, 5 per 1,000 Rs, 5-4 per 1,000 being shown in the "Remarks" column as the issue rate, till the clove of the half-year, when the future issue rates of the balance of bricks on hand would be worked out at Rs, 5-4 per 1,000 which would then be the issue rate of the current half-year. The increased rate would not be charged on building contracts allowing for a rate of Rs. 5 per 1,000 for the supply of bricks, the difference in value being debited direct to the work as the issues occur.

(b) Take again another case-

Rs. a. p.

500 maunds of coal were purchased during the half-year at Re. 1 per maund ... 500 0 0

If the issue during the half-year were 200 maunds at Re. 1-2 per maund to cover wastage, value ... 225 0 0

There would remain 300 maunds, value ... 275 0 0

At the close of the half-year the current issue rate would continue to be Re. 1-2 per maund, the "profit" of Rs. 25 on the sales of the half-year being reserved which would ultimately be adjusted under stock or by credit to works.

- 9. It will be understood that when the articles are scattered over several sub-divisions and the transactions are numerous and complicated, it will be necessary to keep card ledgers showing the total values of receipts and issues under the several sub-heads, viz., small stores, building materials, etc., by sub-divisions which should be posted daily.
- 10. As soon as the adjustments under each Subhead have been worked out, the orders of the Divisional Officer will be taken in writing for the adjustment of the Profit or loss in the next monthly accounts by crediting or debiting other sub-head of stock and such works in progress as may be decided upon with the approval of competent authority.
- 11. Stock deficits are generally due to two causes; one to actual loss of materials and the other to differences between former and present rates owing to depreciation of materials and other extraneous causes. But to whatever cause, the deficit may be due, a full report on the subject should at once be made to the Superintending Engineer and a copy sent to the Examiner.
- 12. The Stock Register having been closed and balanced with the Stock Account, any transfer between sub-heads of stock or debit or credit to works should be passed through the Stock Account as normal transactions of the month's account which may at the time be in hand.

- 1. This return of the disposal mile by mile, of metal collected for consolidation, should be prepared monthly by the sub-divisional officer, and forwarded by him to the Divisional Engineer's office, where it will be recorded.
- 2. For permanent record in the sub-divisional office these forms will be bound in a book, loose sheets being submitted to the Divisional Engineer monthly.
- 3. The balance of metal in each mile should be shown monthly, whether there are any transactions on it during the month or not.
- 4. No half-yearly register or return of road metal will be required, and the only other record necessary will be the rate book (Form No. 17).
- 5. Inspecting Officers will test-audit these returns during the course of their periodical inspections.

NOTES,

[Vide Paras 219, 238 and 239 of the P. W. A. Code.]

- 1. When stores of any kind become unserviceable, a report thereof must be made at once by the subordinate in charge in this form as it is desirable to avoid keeping worthless materials on stock, and if the disposal of the report is not within the powers of the Divisional Engineer it will be submitted to the Superintending Engineer.
- 2. In the report should be stated the period during which the articles have been in store or in use, and the cause of deterioration in full.
- 3. On receipt of the Superintending Engineer's orders as to the disposal of the articles, the Divisional Engineer will promptly take the necessary action with regard to their disposal, and submit the report to the Examiner with the accounts of the month in which the credit is made to Stock or Revenue, according as the articles sold are comprised of Stock materials or Tools and Plant.
- 4. A similar form should be used for reporting loss of, or damage to, stock.

Superintending Engineer,

[Vide Paras 202 and 231 of P. W.A. Code.]

- 1. This form will be used for all sales of stock or tools and plant, whether by auction or other agency, but materials issued to a contractor for works under execution by him, should not find a place in this document. In the case of private sales no deduction will be made on account of commission, nor the auctioneer's receipt be filled up.
- 2. In the case of the sale of tools and plant the column headed "rate" "book value" and "loss" will be left blank.
- 3. When stock is sold at a loss, and the Pivisional Officer has not been specially empowered to write off such losses, the circumstances should be reported to the Superintending Engineer for orders; in such report it should always be stated whether the value of the remaining articles in Stock can be raised without exceeding the proper market value of such articles, and whether there is a probability of these being used for works at the enhanced rates. The description and book value of the articles, the rates of which it is proper to raise the present rate and the proposed increase should be clearly noted.
- 4. If the stock, the sale of which has resulted in a loss, was purchased for specific work the proper course would be to write off the loss to debit of the work concerned, and the practicability or otherwise of doing this should be noticed when reporting on the loss.

In drawing up the salary bill, care should be taken to see that in the case of every change in the bill, the necessary certificates and information are furnished and authority, etc., quoted. The following are some of the chief points requiring attention:—

I.—In case of first appointment —

- 1. Age and Mulki certificatos.
- 2. Authority for onfortainment.
- 3. Salary commonces from the date of entering upon the actual duties of the situation except in cases where it is otherwise ruled.

II.—In case of promotion.—

4. On transfer higher rate of salary commences from the date of assuming charge of new office; when not on transfer it commences from the date of the order or as may be specially notified.

III.—In case of transfer.—

- 5. Last pay certificate.
- 6. Joining time allowed by rule is not exceeded.
- 7. Date, foreneen and afternoon of giving over and assuming charge.

IV.-Generally.-

- 8. Anthority for change in the rate of pay, allowance, etc.
- 9. Remarks re: loave suspension ctc., to be noted when salary is not drawn.
- 10. For temporary establishment, the period of sanotion should not be exceeded.
- 11. Reference to orders should be noted when drawing salary in advance on transfer order leave etc.
- 12. The deductions on account of Security deposit, Insurance Fund, House rent. manual etc. are in accordance with rules prescribed by Govt. in that regard.
- 13. Explanation of anything unusual in the bill.
- 14. The bill should be drawn up and submitted for audit by 25th of the month and before any salaries are paid.
- 15. Arrears of salaries of any month should be claimed in the first monthly bill submitted to the Audit Office after the claim becomes known. They should always be separately entered, full detail being given as well as reasons for which these were not drawn before.
- 16. Divisional officers will note in the remarks column of their bills for Aban the dates of birth and completion of 55 years of age.
- 17. Receipt stamps are attached against all items exceeding Rs. 20.
- 18. Salary may be drawn and paid before the expiry of the month if so sanctioned by the F. D. or the Officer is transferred to another Division or quoting Govt, service.

leave is notified in the Gazette, and also that the statement is sanctioned by the proper authority and that the levae is that sanctioned in the leave statement or the leave allowance rules. For office hands on leave, see that there is a continuous

leave has been granted otherwise than in accordance with the rule."

NOTES:

- 1. This list should accompany the monthly salary bill submitted for pre-audit to the Examiner and when a supplementary pay bill is drawn up for the claims of such absentees or their substitutes, it should be based on the Absentee Statement.
- 2. The proceedure to be followed in the payment of leave allowances and pay or salary to absentees within the Dominions is as follows:—
 - (a). All leave allowances should be included monthly as they become due in the salary bill of the Division or office to which the absence is attached.
 - (b). After the leave allowance is passed by the Audit Office, the payment there of can be made by the disbursing officer, only when the absentee appears in person or furnishes a life certificate granted by persons authorized to give such certificates as per rules in the Hyderabad Civil Service Regulations.
 - (c). When drawing up the bill the following references should be quoted.
 - (I). Competent sanction to leave.
 - (II). Date (forencen or afternoon) on which leave was availed of.
 - (III). Nature and extent of leave.
 - (IV). Officiating arrangement if any sanctioned.
 - (d). In the onse of suspension, the period of suspension and subsistance allowance if any fixed.
 - (e). In the case of transfer, the date of handing over charge and the place to which transfer has been ordered by competent authority.

Divisional Officer,

Division,

NOTES:

PART I,

- 1. Claims for travelling allowances and the journals in support of them should be submitted within the month after that to which the claims relate.
- 2. A supervisor or other subordinate who habitually and without due cause assigned omits to despatch his journal in support of claim for travelling allowance within the first five days of the month succeeding that for which the claim is made should be reported to the Superintending Engineer.
- 3. Superintending Engineers should carefully scrutinize the journals of all Executive Officers serving under them and disallow all claims to travelling allowance not fairly earned. From the knowledge they possess of the circle under their charge and of the works in progress in the several divisions, Superintending Engineers are alone fully competent to judge of the necessity or otherwise of each halt of the distances charged and of the necessity for the allowance etc, and the Government look to them as the primary auditors to the Travelling Allowance Bills of their subordinate officers, not to permit the provisions of the Travelling Allowance Rules to be taken undue advantage of.
- 4. In the case of Gazetted officer, only Part I. of the T.A. bill Form No. 20 (h). will be used. Part II. of Form No. 20 (h). Abstract will accompany the T.A. bills of non-Gazetted officers.
- 5. This Form should be used even in the case of Work Charged Establishment also.

Division

PART II

A consolidated Travelling Allowance bill should be drawn up for the entire division and claims for travelling allowance pertaining to a month should be embodied in it (grouped up according to the establishment to which the claim relates) and submitted to the Examiner's Office for audit by about the 15th of the month following that to which the claim relates. The bill should be accompanied by all the route statements duly approved by the Controlling Officer.

2. The Executive staff should submit their route statements to the Divisional Office not later than the 15th of the month following that to which the claim relates and any journals received after the submission of the month's consoldidated bill may be held over in the Divisional Officers Office for inclusion in the next month's bill. No supplemental bill should be drawn up. Disallowances made in a bill should be included in any subsequent month's consolidated bill after the question of the admissibility of claim has been decided by the Examiner's Office.

NOTES.

- 1. The charges should be entered in order of payment from the Cash books of Divisional and Sub-Divisional Officers.
- 2. The order of Government should be quoted when office rent is drawn and the first charge made in each official year must be supported by a certificate.
- 3. Charges for Telegrams require to be supported by receipts from the Telegraph Department. Charges for service postage labels and fees for money orders must be supported in every case by receipts no matter what the amount involved may be.
- 4. This form should be used for all contingencies services and supplies and other special charges.
- 5. Chief and Superintending Engineers will also submit their monthly contingent bills with the requisite vouchers, for recoupments of the imprest account in this Form.
- 6. Every officer should exercise the same vigilance in respect of contingent expenses as a person of ordinary prudence would exercise in spending his own money.
- 7. Expanditure should be within the available appropriation. If possible, expenditure should be postponed till sanction is obtained to an additional appropriation. On no account, may a charge actually incurred in one year be thrown on the grant of another year.
- 8. As soon as a bill for the Purchase of furniture or other stores is paid for all these articles should be entered in the Rogister of furniture duly certifying on the Vouchor and the contingent bill to that effect and giving reference to such entries in the Register.

(Vide Puras 283 & 284 of the P. W. A Code)

- 1. The Nominal Muster Roll is the initial record of the labour employed each day on a work, and must be written up daily by the subordinate deputed for the purpose, each morning before the labourers begin work.
- 2. In opening the Nominal Muster Roll, the work people should be mustered in order and their names taken down according to their classes and rates of wages, the names of the higher paid workmen being entered first and so on in succession to the lowest class. A little space should be left after each group of names, to provide for the entry of the names of additional work people who may be engaged before the close of period for which the Muster Roll is kopt.
- 3. The presence or absence of each labourer will be denoted each day by the insertion of the figure I or a inaction in case he is fined a portion of his day's wages or "a" in case of absence as the case may be against his name; the figures brought out in the co'umn "Total" will represent the total number of days each labourer had been present and his total multiplied by the "Rate" gives the "amount" of the wages for the period of the Muster Roll.
- 4. The Muster Roll should be closed immediately after the close of ten days from the date from which it is kept and the labourers paid as soon after as possible.
- 5. The paying officer will make the disbursements, note the date of payment and enter his initials opposite the name of each labourer paid, the signature of the labourer being obtained in all cases when he can write and his thumb impression if he is illiterate; the certificate at foot of the Nominal Muster Roll will then be attached as provided for in the form.
- 6. Name of labourers who are absent and have not been paid will be transferred to the Register of Arrears Part II, and the amount so transferred will be deducted from the grand total of the "Balance due" so as to bring out the "Balance paid" according to the Muster Roll.
- 7. The Register of Arrears Part II also shows the arrears of previous Muster Rolls brought forward; any payments made on account of these arrears should be noted in the column "amount paid" and the date of payment in the column "when paid" the total of the column "amount paid" should be added in Part I to the 'Balance paid' referred to in para 6 above and this will bring out the total payments to be entered in the paying officers account, in support of which this Muster Roll will be the voucher.
- S. Part III of the nominal roll is an extract from the measurement book of the officer in charge of the work done by the labour employed. The quantity of the works turned out during the period should be compared with the cost of the labour employed so as to afford satisfactory evidence that the outpurn of the work gives a sufficient return for money roent. Any marked deficiency in this respect should be noticed by the paying officer as may appear recessary.

Note: When wages are not claimed within three months a report of this fact should be made to Divisional Officer.

^{*} If the work is not susceptible of measurement, a remar to this effect should be recorded. × if desired rates may be struck where possible and show in red ink first below the quantities in this column.

NOTES.

[Vide Para 288 of the P. W. A. Code]

- 1. The cash transactions of a subordinate are reported in the imprest account and those of labour in the report. The report is prepared in duplicate, one copy being submitted to the Divisional Officer, and the counterfoil being retained by the subordinate.
- 2. Where a muster Roll is kept, it should be seen that the totals for the day shown in it and the Daily Report agree.
- 3. As it is essential that the Divisional Officer should have some guarantee that the labour employed has executed a proper quantity of work, the nearest approximation to the quantities actually executed should be entered in the last column. These, being only approximate, should be checked by the measurements recorded in the measurement books when correctly measured.
- 4. The report of materials received and issued will be submitted in Forms No. 35 & 37.
- 5. Form No. 21 (a) may be kept both for labour employed by Government or by a Contractor.

[Vide paras 287 and 288 of the P. W. A. Code.]

- 1. The measurement book is the basis of all accounts of quantities whether of work done by piece-work or by contract, or materials received which have to be measured, and should be so kept up that the transactions may be readily traceable into the accounts.
- 2. All measurements are to be neatly taken down in this book and in no others. The description of the situation of work must be lucid, so as to admit easy identification and check. The entries should if possible, be made in ink; but when this is not practicable and entries have to be made in pencil, the pencil entries should not be inked in, but left untouched. The "contents" or "area" should, however, be invariably inked in.
- 3. No erasures are allowed. If a mistake is made, it should be corrected by drawing the pen through the incorrect entry and inserting the correct one in red ink between the lines. Every such correction should be initialled.
- 4. If or large works, a separate measurement book may be specially set apart, or if found convenient, even two or more books may be set apart for different classes of works.
- 5. The measurement books must be looked upon as important records; they should be carefully checked by the Divisional Officer to see that they are kept up as complete records of each kind of work done for which certificates have been granted. The eventual return of all books to the divisional officer for record should be insisted upon.
- 6. Whenever a sub-divisional officer is required to submit his measurement book with his accounts to the divisional office, it will be necessary to provide a second book for his use.
- 7. Whenever progress on a work is reported in lump sum quantities under sub-heads of work, the No. and page of the measurement book should invariably be quoted.
- 8. From the measurement book all quantities should be clearly traceable into the documents on which payments are made, and a reference to the voucher in which the quantities are entered for payment, as well as the date of entry, should be given by an endorsement upon the original entries in the measurement book. No centract certificate or bill should be signed without thus crossing out the connected entry in the measurement book, and the document on which payment is made, should invariably bear a reference to the number and page of the book in which the detailed measurements are recorded.

^{*} Entries relating to each description of material should be posted thus in column 3. First enter the difference between the quantities in column 1 and 2. Then show below this entry, the quantities, if any brought to site against which a further advance has been authorised, this entry being prefixed by the plus sign. Finally, strike the total of the two entries, which will represent the total quantities outstanding.

*** Entries in column 8 shown the money values of the total quantities outstanding as per column 3.

III.—Certificates and Signatures.

1. The measurements on which are based the entries in columns 4 to 9 of Account I were
made by Overseer, on and are recorded at page of Measurement Book No.
‡ 2. Certified that in the addition to and quite apart from the quantities of work actually
executed as shown in column 7 of Account I, some work has actually been done in connection with
several items, and the value of such work (after deducting therefrom the proportionate amount of
secured advance, if any ultimately recoverable on account of the quantities of materials used
therein) is in no case, less than the advance payments as per column 3 of Account 1, made, or
proposed to be made, for the convenience of the contractor, in anticipation of, and Subject to the
results of, detailed measurement, which will be made as soon as possible.

‡ 3. Certified (1) that the plus quantities of materials shown in column 3 of Account II above have actually been brought by the contractor to the site of the work and the contractor has not previously received any advance on their security, (2) that those materials are of an imperishable, nature and are required by the contractor for use on the work in connection with item for which rates for finished work have been agreed upon, and (3) that a formal agreement in Form 109 signed and executed by the contractor in accordance with Public Works Code, is recorded in the divisional office.

	Dated signature of officer \ (Rank) Sub-Divisional Officer, preparing the bill \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \	n.
• Dated signature of Contractor.	§ Dated signature of officer } authorising payment	<u> </u>

[§] These cetificates must be signed by the Sub-Divisional or Divisional Officer This Signature is necessary only when the officer who prepares the bill is not the officer who anthorises the Payment. In such a case the two signatures are essential.

P. W. A. FORM No. 26.

V.—Remarks,

(This space is reserved for any remarks which the Disbursing Officer or the Divisional Officer may wish to record in respect of the execution of the work, check of measurements or the state of Contractor's account.)

NOTES.

[Vide paras 292 and 296 of the P. W. A. Code]

- 1. This form is intended for use in the case of payments on account for works in progress for supplies. This form, printed on yellow paper must invariably be used for the final payments in such cases.
- 2. Payments made by cheques to recognized firms or institutions need not be attested, if the disburser considers attestation to be unnecessary.
- 3. When the payee signs in the vernacular, the amount acknowledged should also be noted in the vernacular as well as in English.
- 4. A special form, printed on yellow paper with the words "as a final payment in settlement of all demands" printed in, is to be used when the Contractors is finally paid up for the value of work, for which one or more payments on account have already been made; and where the Contractor can write, he should be required to add in his own handwriting words to the effect that the payment is in full settlement of all demands. If he is unable to write beyond signing his name or is unable to sign, these words should be filled in by the Officers making the payments.
- 5. In the case of payees who can neither read nor write, their mark or seal should be attested by two competent witnesses, in whose presence the nature of the payment should be fully explained.
- 6. The sub-divisional officer, should be careful to note in column of "Remarks" in the body of the bill, the quantity of materials issued to Contractor, the value of which is to be deducted at the time of payment.
- 7. This bill will contain one man's account only; full details of quantities of the different classes of work or supplies must be always set forth.
- 8. The account for which the meterials are purchased whether for stock or for work must always be stated, and the name of the officer who took over the meterials be entered, unless he is the officer who signs the certificate.
- 9. If the officer who prepares the bill has authority to make payment only one signature at the foot of the bill is necessary.
- 10. A receipt stamp is required for every payment exceeding Rs. 20.
- 11. The full name of the work as given in the estimate should be entered except in the case of bill for "stock" materials.
- The "purpose of supply" applicable to the case should be filled in and the rest scored out.

INDENTURE FOR SECURED ADVANCES.

See rules in P. W. D. Code and para 307 of the P. W. A. Code

(For use in cases in which the contract is for finished work and the contractor has entered into an agreement for the execution of a certain specified quantity of work a given time).

day of

THIS INDENTURE made the

Between (hereinafter called the Contractor which expression shall where the context so admits or implies be deemed to include his executor administrators and assigns) of the
one part and Divisional Officer (hereinafter called the Superintending Engineer which ex-
pression shall where the context so admits or implies be deemed to include his successors in office and assigns) of the other part.
WHEREAS by an agreement dated (hereinafter called the said agreement) the Contractor has agreed
AND WHEREAS the Contractor has applied to the Divisional Officer that he may be allowed advances on the security of materials absolutely belonging to him and brought by him to the site of the works the subject of the said agreement for use in the construction of such of the works as he has undertaken to execute at rates fixed for the finished work (inclusive of the cost of materials and labour ane other charges) And whereas the Divisional Officer has agreed to advance to the Contractor the sum of Rupees on the security of materials the quantities and other particulars of which are detailed in part II of a Running Account Bill(B)for the said works signed by the Contractor on and the Divisional Officer has reserved to himself the option of making any further advance or advances on the security of other materials brought by the Contractor to the site of the said works. Now this Indenture Witnesseth that in pursuance of the said agreement and in consideration of the sum of Rupees on or before the execution of these presents paid to the Contractor by the Superintending Engineer (the receipt whereof the Contractor doth hereby acknowledge) and of such further advances (if any) as may be made to him as aforesaid the Contractor doth hereby expendit and agree with the Divisional Officer and declars as follows:—
hereby covenant and agree with the Divisional Officer and declare as follows:— Superintending Engineer
(1) M1 -4 41 (1 6 7)
(1) That the said sum of Rupees so
(1) That the said sum of Rupees so advanced by the Divisional Officer to the Contractor as aforesaid and all or any further sum or sums advanced as aforesaid shall be employed by the Contractor in or towards expediating the execution of the said works and for no other purpose whatsoever.
advanced by the Divisional Officer to the Contractor as aforesaid and all or any further sum or sums advanced as aforesaid shall be employed by the Contractor in or towards expediating the execution of the said works and for no other purpose whatsoever. (2) That the materials detailed in the said Running Account Bill (B) which have been offered to and accepted by the Divisional Officer as security are absolutely the Contractor's own property and
advanced by the Divisional Officer to the Contractor as aforesaid and all or any further sum or sums advanced as aforesaid shall be employed by the Contractor in or towards expediating the execution of the said works and for no other purpose whatsoever. (2) That the materials detailed in the said Running Account Bill (B) which have been offered to and accepted by the Divisional Officer as security are absolutely the Contractor's own property and free from encumbrances of any kind and the Contractor will not make any application for or receive a further advance on the security of materials which are not absolutely his own property and free from en-
advanced by the Divisional Officer to the Contractor as aforesaid and all or any further sum or sums advanced as aforesaid shall be employed by the Contractor in or towards expediating the execution of the said works and for no other purpose whatsoever. (2) That the materials detailed in the said Running Account Bill (B) which have been offered to and accepted by the Divisional Officer as security are absolutely the Contractor's own property and free from encumbrances of any kind and the Contractor will not make any application for or receive a
advanced by the Divisional Officer to the Contractor as aforesaid and all or any further sum or sums advanced as aforesaid shall be employed by the Contractor in or towards expediating the execution of the said works and for no other purpose whatsoever. (2) That the materials detailed in the said Running Account Bill (B) which have been offered to and accepted by the Divisional Officer as security are absolutely the Contractor's own property and free from encumbrances of any kind and the Contractor will not make any application for or receive a further advance on the security of materials which are not absolutely his own property and free from encumbrances of any kind and the Contractor indemnifies the Divisional Officer Superintending Engineer against all claims to

(5) That the said materials shall not on any account be removed from the site of the said works except with the written permission of the Executive Engineer or an Officer authorised by him on that behalf.

P. W. A. FORM No. 31.

- (6) That the advances shall be repayable in full when or before the contractor receives payment from Divisional Officer of the price payable to him for the said works under the terms and provisions of the said agreement provided that if any intermediate payments are made to the Contractor on account of work done than on the occasion of each such payment the Divisional Officer will be at liberty to make a recovery from the Contractor's bill for such payment by deducting Engineer liberty to make a recovery from the Contractor's bill for such payment by deducting therefrom the value of the said meterials than actually used in the construction and in respect of which recovery has not been made previously the value for this purpose being determined in respect of each description of materials at the rates at which the amounts of the advances made under these presents were calculated.
- (7) That if the Contractor shall at any time make any default in the performance or observance in any respect of any of the terms and provisions of the said agreement or of these presents the total amount of the advance or advances that may still be owing to the Divisional Officer shall immediately on the Superintending Engineer together with interest thereon at twelve per cent per annum from the date or respective dates of such advance or advances to the date of repayment and with all costs charges damages and expenses incurred by the Divisional Officer in or for the recovery thereof or the enforcement of this security or otherwise by reason of the default of the Contractor and the Contractor hereby covenants and agrees with the Divisional Officer to repay and pay the same respectively to him accordingly.
- (8) That the Contractor hereby charges all the said materials with the repayment to the Divisional Officer

 Superintending Engineer of the said sum of Rupees and any further sum or sums advanced as aforesaid and all costs charges damages and expenses payable under these presents provided always and it is hereby agreed and declared that not with standing anything in the said agreement and without prejudice to the powers contained therein if and whenever the covenant for payment and repayment herein before contained shall become enforceable and the money owing shall not be paid in accordance therewith the Divisional Officer if may at any time thereafter adopt of following courses as he may deem best:—
 - (a) Seize and utilise the said materials or any part thereof in the completion of the said works on behalf of the Contractor in accordance with the provisions in that behalf contained in the said agreement debiting the Contractor with the actual cost of effecting such completion and the amount due in respect of advances under these presents and crediting the Contractor with the value of work done as if he had carried it out in accordance with the said agreement and the rate thereby provided. If the balance is against the Contractor he is to pay same to the Divisional Officer Superintending Engineer
 - (b) Remove and sell by public auction the seized materials or any part thereof and out of the moneys arising from the sale retain all the sums aforesaid repayable or payable to the Divisional Officer

 Superintending Engineer under these presents and pay over the surplus (if any) to the Contractor.
 - (c) Deduct all or any part of the moneys owing out of the security deposit or any sum due to the Contractor under the said agreement.
- (9) That except in the event of such default on the part of the Contractor as aforesaid interest on the said advance shall not be payable.
- (10 That in the event of any conflict between the provisions of these presents and the said agreement the provisions of these presents shall prevail and in the event of any dispute or difference arising over the construction or effect of these presents the settlement of which has not been hereinbefore expressly provided for the same shall be referrred to the Superintending Engineer whose decision shall be final for the time being in force shall apply to any such reference.

In Witness whereof the Divisional Officer Superintending Engineer

NOTES.

[Vide paras 337,338 and 348 to 363 of the P.W.A. Code]

- 1. This Form will be used when outlay is not recorded by sub-heads.
- 2. Postings made in the Sub-Divisional Office should be in black ink and all postings and corrections made in the Divisional Office in red ink.
- 3. Entries in column 4 should be made from Account I (Total D of column 2) of Running Account Bill Form A. or B.
- 4. In column No. 5. should be posed the total E. of column 8 of Account II of Running Account Bill Form B.
- 5. Column 6 is intended for all miscellaneous debit and credits to contractors awaiting settlement. The debits will usually consist of (1) Advance other than Secured Advances (2) Payment made (under proper authority) to labourers and others on behalf of and by charge to the account of contractors, and (3) Issue of stock and other materials to contractors. This should be posted as plus entries from the Voucher or arcount as transactions take place. The credits will ordinarily be on account of amounts with-held for future payment from Running Account Bills for work done. Such credits as well as repayments of amounts with-held and recoveries of debits (1), (2) & (3) anove appear in Running Account Bills as Entry (G) of momorandum of payments, which should be posted in this column as a plus entry if minus or vice versa.
- 6. Unpaid amounts of muster rolls should be posted in this column 7 as minus entries. Subsequent payments of these arrears should be shown as plus.
- 7. In the case Running Account Bills for work done the figure in column 8 should agree with entry (4) in the memorandum of Payments.

Divisional Accountant.

Divisional Officer.

Approved

Date-

Date-

[Vide para 366 of the P. W. A. Code]

The Divisional Officer is held primarily responsible for affording information in cases of probability of excess of actual over estimated cost of work and is expected not to allow any delay to occur in reporting to the Superintending Engineer any such probability. Immediately on its becoming apparent that whether from excess of certain rates as from departure from a design or any other cause, the estimated cost of a work if likely to be exceeded the Divisional officer is bound to report the fact forthwith to the Suprintending Engineer, describing the nature and cause of the probable excess and asking for orders. This report should be made in the work slip (Form No. 59).

Remarks,

(Vide paras 364 to 374 of P. W. A. Code.)

- 1. The Register of Works is the Divisional Officer's permanent and collective record of work done. The form has columns for quantity and cost of each head or sub-head of work done, and the last column gives the total cost. The first line shows in red ink the estimate work and outlay as per "Abstract of Estimate." Under this will be entered, month by month, from the Works Abstract the actual expenditure incurred during the month, and the total expenditure up to the end of each month.
- 2. The Register of Works should contain a record of every original work or repair estimated to cost more than Rs. 1,000, showing the expenditure, month by month, compared with the estimate, and, in the case of works the outlay on which is recorded by sub-heads with the sub-heads of the estimate.
- 3. The Register will be supplied with an index which should be sub-divided under the departmental heads and neatly kept for ready reference. The utmost punctuality should be observed in posting this Register to date, i. e., the posting of the Register should be complete when the monthly accounts are submitted.
- 4. In the case of original works the amount of appropriation for the year should be noted in the Register at the top of the page after the authority for the work, and any additions or reductions made during the year should also be noted in the same place.
- 5. When "Supplementary Estimates" are sanctioned, the items of sub-heads should be entered below those of the original estimate and both totalled.
- 6. When it is found necessary to have a "Revised' Estimate, the Register of the "Original Estimate" should be closed and the "Revised Estimate" entered on a fresh page, a reference to the page on which the "Original Estimate" is to be found being entered.
- 7. When necessary, columns should be opened for "Fines from Contractors," etc.
- 8. The Register of each work on which there has been expenditure during the month should be initialled by the Divisional Officer in the column set apart for the purpose, in token of his having examined the entries and found them correct.
- 9. Items each estimated to cost Rs. 500, and under, have not to be accounted for by sub-heads.
- 10. When a work is completed, a double red ink line should be ruled below the final entries and a completion note in the form prescribed in para 817 recorded.

(Vide para 397 of the P. W. A. Code.)

- 1. The mode of keeping this register is fully explained in the P.W. A. Code. It is kept in two parts, the first of which shows in the usual manner the work done, and the second the quantity and value of the out turn. This value will be as, nearly as possible, the actual cost of the articles turned out.
- 2. A separate account should be opened for each operation, and the account of every operation should be closed at least once in every year at the end of the working season; should the manufacture be continued from year to year, the operation of each season should be treated as a separate work.
- 3. When there is any balance at debit or credit of the operation after the account has been completed, the Divisional Officer will adjust it in the following manner.
 - (a)—When there has been a loss. By crediting the manufacture and debiting the sub-head of stock concerned.
 - (b)—When there has been a profit. By debiting the mannfacture and crediting the sub-head of stock concerned.

In either case the adjustment should be made through Forms No. 9 and 10.

- 4. An analysis of the balance at debit under each operation at end of Aban every year should be submitted with the half-yearly stock register ending that date.
- 5. As in the case of the Register of Works, the Divisional Officer will initial the register of each manufacture on which there has been any expenditure or from which there has been any outturn during the month,

- 1. The Contractors' Ledger shows the actual advances or payments to contractors, on one side and on the other the value of work done as per certificates. There is a ledger for each contractor undertaking important works or supplies.
- 2. Contractors' accounts should be closed without delay on the completion of the contract. If a contractor delays to receive final payment for more than one month after the final certificate has been passed, the accounts of the work and of the contractor, should be closed and the balance due credited to the head "Deposits.',
- 3. When there are balances due to a contractor on more than one certificate, the amount due on each certificate should be detailed in the ledger.
- 4. When there are balances outstanding from previous month's not affected by the month's transactions, a list of such balances should be given on the last page of the form.

NOTES:

[Vide para 374 of P.W.A. Code]

- 1. This form should be submitted to the Examiner with the accounts of the month in which the work is reported to be completed. It is only intended to be used for works, the outlay on which is recorded by sub-heads or items of work and which have exceeded the sanctioned estimate by more than 5 per cent.
- 2. The entries in the Completion Report must accord with the closing entries in the Register of Works, and the last Schedule docket submitted to the Examiner.
- 3. In the case of contribution works, proposals should be submitted as to the disposal of the unexpended balance, if any.

NOTES!

- 1. On completion of a work this form should be forwarded to the head of the department for which executed, for his signature to the certificate and return to the Divisional Officer who will then forward it with the completion report Form No. 51 to the Examiner for verification and transmission to Superintending Engineer.
- 2. The following extract from the Public Works Code defines the responsibility incurred by the Officer signing the completion certificate.
- "The counter signature of a civil officer merely implies that he has satisfied himself to the best of his ability that the work has been done properly." and involves no further responsibility. When the countersigning officer objects to any of the statements in the paper presented to him he should still sign it, adding any remarks he may think proper but it must be borne in mind that in making remarks which are unnecessary or irrelevant he may occasion much trouble and delay.

NOTES.

- (1). Applications for Letters of Credit in this form should be despatched so as to reach the Examiner's Office not later than the 20th of each month immediately ensuing.
- (2). The total credit applied for should be in round hundreds, e g., when a credit of Rs. 2,479-8-0 is required a sum of Rs. 2,500 should be applied for, sums below 50 being omitted and above that being applied for as 100-0-0.
- (3). No letter of advice of a credit having been granted to him, will as a rule be sent to the Divisional Officer. But when the credit granted is less than the amount applied for by the Divisional Officer the Audit office will inform him of the reduction made.
- (4). Application for supplementary credits, specially by telegraph, should be avoided as far as possible. In case, however, a supplementary credit is absolutely necessary, the same will be granted on due cause being shown, but care should be taken to prepare the formal applications for Letters of Credit in this form before despatch of the application by telegram, Intimation of such credits having been granted will always be given. An application by telegraph must be immediately followed up by an explanation of the cause of urgency.
- (5). Funds required for Non-Budget head such as repayment of deposits, expenditure on works for which contribution has been received and remains at credit in the Deposit Account and payments on account of other Divisions should be detailed in the space set apart for the purpose, The Divisional Officer will be responsible that he has funds to cover applications for money to meet all payments of this nature.
- (6). Should no letters of credit be required for any month this form must still be submitted, lines 10 and 12 being left blank.

Net grant as shown in line 1 .	3,57,1	72	T	otal as per over	leaf	55,00	

Forwarded to the Examiner for compliance.

(Vide para..... of the P. W. A. Code).

- 1. In this register should be recorded in chronological order, the appropriations sanctioned from time to time by various authorities under all service heads during the official year.
- 2. Separate pages should be set aside for Original Works, Repairs, Establishment and Tools and Plant under each fund head; and an abstract made at the end of the register, a total of the allotments being made to the 10th of each month for the figures in the application for letter of credit (Form No. 47).
- 3. The register should be used until all the pages are completely filled in, each complete form being ruled off.

NOTES.

- 1. This form should be used by the Divisional Officer in any of the following cases:
 - a, When he requires a grant or an addition to an existing grant for carrying on a sanctioned work.
 - b. When he is unable to utilize the grant at his disposal for any work, and wishes to resign it oither wholly or in part.
 - c. When he wishes to utilize the grant for one work upon some other.
- 2. Either of the columns for "proposed new grant" or for "proposed reduction" or both may be used as required.
- 3. If it happens that the grant already allowed has been reduced the entry in the column "existing grant for current year" would of course be the amount less such reduction.
- 4. It being of the utmost importance that early intimation of possible lapses, or of excesses in outlay on works, should be communicated to the Government a close watch should be maintained on the progress of all works by Executive Officers and this form employed the moment the facts are sufficiently known.
- 5. Applications for re-appropriations which require the sanction of the Government should be submitted by the Superintending Engineer in duplicate.

- 1. For recovery of the rent from the Civil employees the Divisional Officer will fill up this form and forward it on to the Taluqdar concerned with a view to the necessary deduction being made from the salary of the parties concerned. This list should reach the Taluqdar's office at least 5 days before the close of the month. The Taluqdar will after necessary deduction) from the pay bills concerned return the list to the Divisional Officer duly filling in columns 14, 15 and 16 with a verification certificate to the effect that.—"The amount included in column 13 has been deducted (in full or in part as the case may be), in the pay bills of the person concerned and credited in the "Goshwara" under the head "Remittances from Civil to P. W. D." The Divisional Officers on the strength of the verified list, will incorporate the amounts in the Public Works Accounts, by credit to "Public Works Revenue" and debit to "Remittance from Civil to P. W. D." and submit the verified statement with his accounts to the Examiner's Office. These entries also will be incorporated in the monthly return. (Form No. 95) These entries also will be incorporated in the monthly return. (Form No. 95.)
- 2. This form should accompany the pay bills sent to the Office of the Examiner for recovery of rent from P. W. D. Officers.

- 1. In the case of Buildings under Part I, all particulars noted in (1) to (9) and column "Assessment of each month" will be filled up first and columns "Realisatious" and "Balance" will be filled up on receipt of Form No. 48 from the Treasury officer and the compilation of Divisional accounts.
- 2. In the case of Buildings coming under Part II (i. e., Residential Buildings occupied free of rent) only columns (1) to (7) will be filled in and a remark will be made across the other columns giving reference to the authority under which each building is occupied free of rent.
- 3. In the case of rest houses, Travellers and Inspection Bungalows coming under Part III, it will not be necessary to fill in columns 3 to 9 or the columns "Assessment" and "Balance."
- 4. In the case of Buildings used for Offices and other Govt. Institutions which come under Part IV, the name of office or institution will be entered in column (3) columns 4 and 7 to 48 will be left blank and columns 9 to 48 will be filled in only when rent is realized under competent sanction; otherwise a remark will be made across these columns giving reference to the No. and date of authority under which such buildings have been assigned to the Office or Institution occupying the building.
- 5. In the case of private buildings taken on hire by the Govt. for the use of Govt. Offices or any Govt. Institutions such as Office, School Boarding House, Library etc, it will be necessary to fill in only columns 1 to 3 and 6.
 - With a view to post this part of the registers, the Divisional Officers should ascertain the necessary data either at the time of issuing the certificate required under the rules or by reference to the Treasury Officer.
- 6. In the Romarks column of this register, important information such as the date of vacating the buildings etc, should be entered against the buildings in the respective parts.

^{*} The Divisional Accountant should also initial in token of Examination under Para 1088 (c) of the P. W. A. Code.

[Vide paras 245 to 251 of the P. W. A. Code.]

- 1. Adjustment in accounts will be necessary :-
 - (1) On the return of materials from works to stock.
 - (2) On the transfer of materials from one work to another.
 - (3) On the discovery of an erroneous charge which should, in a previous month, have been debited to some other estimate or head of account,
 - (4) On the transfer of a debit or credit from one account to another, except in the case of adjustment in the divisional office of sum at debit or credit of a suspense head, e. g., "Miscellaneous advances" to or from a work or a final head of account.
- 2. The officer initiating the adjustment will fill in a Transfer Entry order in Form No. 53 as far as he is able to do so and forward it to the divisional office where it will be completed.
- 3. The necessary entries will then be made in the accounts concerned, and the transaction will be posted in the Transfer Entry Book (Form No. 54.)
- 4. The Transfer Entry order will be submitted to audit with the monthly account as a voucher in support of the entry made in the account debited.
- 5. Officers ordering transfer of the value of materials are responsible that materials transferred to other works are worth the sum at which they are charged, and that materials returned to store are in good condition, are likely to be used within a reasonable time, and are priced not above market rates or the stock rates of the division.
- 6. A Transfer entry should set forth such explanation of the correction or adjustment proposed to be made as would establish clearly the correctness and necessity of the entry. In cases of corrections involving a reduction in the charges against the estimate of a work it is essential not only that full particulars of the vouchers and accounts in which the erroneous charges originally appeared are specified but also that the circumstances in which the charges were wrongly allocated under the estimate for the work are clearly set forth. It is not sufficient to state that the charges were erroneously classified previously.

- 1. This book is intended for the initial record of all transactions which have to be brought into the Divisional Accounts but which do not involve the actual receipt or disbursement of cash by the Division itself.
- 2 The following are instances of such transactions:-
 - A. Receipts or payments in other Divisions or Departments on account of this Division
 - i. Credits to another Division for payments made to subordinates on leave on the requisition of this Division.
 - ii. Credits to the Civil Department for cheques of Public Works Officers.
 - B. Adjusting entries of the division itself such as:—
 - Transfer of a debit or credit from one account to another as when a sum at debit of "Miscellaneous Advances" is finally written off to a work.
- 3 Transactions should be punctually recorded day by day, in the order of their occurrence.
- 4. When the transaction recorded has been the subject of previous correspondence or orders, the entry of the transaction should include a reference to such correspondence or orders so as to facilitate future reference.
- 5. Entries made under instructions from the Examiner should follow as closely as possible the wording of those instructions.
- 6. It is to be specially noticed that for every complete entry made in this book the total of the amounts entered in the two sides must be the same; that is to say, that for every credit to one head of account, there must be a precisely equivalent debit to one or more other heads of account or vice-versa,
- 7. The items, that is to say, the separate sums entered in the column "Amount" are to be consequently numbered, the numbering to commence with the first item in each month and to continue throughout the month.
- 8. The closing entries of the Transfer Entry Book will usually be those relating to the amount of cheques issued as per cash books and cheque books the aggregate of which will be credited to.

"Cheques of Public Works Officers," debited already to the service heads concerned through the Cash Book, and the credits and debits to "Establishment and "Tools and Plant."

- 1. Whenever value in any form is given or received on account of another Division, an advice of the transaction should atonce be sent to that Division.
- 2. All needful particulars to enable the Officer in charge of the of other Division to adjust the transaction in his accounts, must, of course, be given; but particulars which do not concern the other Division should not be entered in the advice.
- 3. No copy of a transfer advice is to be sent to the Examiner, but the Schedule of Debits to Transfers of the P. W. D. (Form No. 77) should contain full particulars, and be supported by the acceptance of transfer.
- 4. On receipt of a transfer advice from another Division, the necessary credit or debit should, if the transfer is accepted, be atonce made in the Transfer Entry Book and the advice should be acknowledged in Form No. 56.
- 5. No transfer should be accepted in part only or refused altogether. If the responding Division objects to any charge included in a transfer advice sent for acceptance, it should, nevertheless, accept the transfer originating and claim a drawback, giving reasons. Should the Division refuse to grant the drawback, the matter should be reported to the Superintending Engineer or the Examiner as the case may be for decision.
- 6. As far as practicable, transfers should be accepted in the accounts of the month in which they are raised so that they may appear in the accounts of both Divsions for the same month; and to ensure this there should be no unnecessary delay in advising transfers. If an advice cannot be accepted in the month, owing to its being received after the close of the monthly accounts. a note to that effect should be made on the Schedule of Transfers, with the date on which it has been accepted.

[Vide para 419 of the P. W. A. Code.]

This account is debited with:

- (i) Advance to work-people, or for collecting labour, when such item cannot be charged off to specific works.
- (ii) Advances to members of the Department.
- (iii) Sometimes retrenchments and errors in accounting, awaiting adjustment.
- (iv) Payment held in suspense for want of information regarding allocation.
- (v) Losses of cash pending adjustments.
- (vi) Expenditure irregularly incurred for other than public purposes in anticipation of receipts of depositor's contribution.
- (vii) Payments made in advance or stores to be supplied.
- (viii) Credit sales of stock.
- 2. The account should be carefully scrutinized. The authority for each adsance should invariably be quoted—any irregularities in sanction being noted by the auditor in the divisional statement of objectionable items. It should be observed that payments to members of the department on account of salaries and travelling allowances in excess of, or prior to and it should not be debited to the account but to establishment.
- 3. Items remaining unadjusted for more than three months should be specially noticed in the Divisional statement of objectionable items.
- 4. No charges may be debited to this account on the ground of absence of insufficiency of sanction or appropriation, nor should items which can be carried to a final head at once or be adjusted by transfer or through an exchange account be allowed to appear under this head. The record of expenditure should always be made at once under the final or transfer head to which it appertains, if that be known. The objectionable items records are the place for watching irregularities, not this account. There should never be any credit halances under this head.
- 5. The entries in this schedule must in each case be in such full detail as to convey clearly the nature of the transaction; when an advance is to be recovered from an individual the entry should open with his name underlined for distinction, and the conditions regarding recoveries (i. e.,) the number and amount of instalment) should be stated.
- 6. Whenever a member of the establishment is transferred to another Division that Division should be debited under "Transfers" with the amount of any advance outstanding against him (the usual advice being sent) and "Miscellaneous advances" credited per contra. The transfer advice sent must give full particulars regarding the transaction, and the entry bringing the transaction into the accounts of the new Division must not only repeat those particulars, but must show that the advance is transferred from another Division.

Aban 1840 F. "1/40 F." for Azur 1840 F. and so on,

[Vide paras 552 and 558 of the P. W. A. Code.]

The account is debited with :-

- (1) Cash outlay on stock received and paid for during the month.
- (2) Value of stock purchased through the "Purchases" account.
- (3) Value of materials received in transfer.
- (4) Value of materials returned to stock by credit to works.
- (5) Cash outlay on manufacture.
- (6) Cash outlay on carriage of stock.

The information required for posting the schedule will be found in Forms Nos. 9 and 10 of the various sub-divisions. The correctness of the entries will be proved by their being in accord with the aggregate results brought out in Form No. 72 Stock Account.

- 2. As in the case of works, the expenditure on manufacture should be posted from the register of works for manufacture. The outlay and outturn on each operation to end of the previous year should be deducted respectively from the total expenditure and outturn to date to arrive at the outlay and outturn of the year for inclusion column 8.
- 3. The excess of expenditure over the value of outturn will be the balance at debit of each operation. The total of all such excess on all the manufacture accounts in the division should correspond with the balance under *Manufacture* exhibited in Part I on the Stock Account (Form No. 71.)
- 4. Only those works or items should be entered on which there has been any transaction during the month and the "operation" and "out-turn" transactions of each manufacture should be shown in two separate lines. In Aban all items under the groups "Manufacture" and "Land kilns etc" the accounts of which are still open should invertably be shown.

NOTES.

- 1. There should be a separate Schedule for the disbursement made under each head of Direction, Construction and Accounts.
- 2. Part I of the Form gives the details of Establishment charges under each of the several heads and sub-heads of establishment and reference to audited bills of the current month. Below the totals of the current month's disbursements under each Sub-head the total of undisbursed salaries of previous months paid during the month should be added so as to arrive at the total charges of the month under each Sub-head.
- 3. Part II gives the particulars of the balances not paid as per column 4 of Part I and explains the cause of non-payment in each case- It also provides for payment of such undisbursed amounts in the subsequent month and the balances still left undisbursed are carried forward in Part II of the Schedule of the following month.
- 4. No undisbursed amounts outstanding for more than 3 months should be carried forward in Part II but the work "omitted" should be noted against such items in column 4 of Part II in red ink showing Nil balance in column 5. A reference to the bill in which the amount of all such items is deducted should be given in column 6. The total amount of all such items should be simultaneously deducted from the total amount of the current month's Salary bill.
- 5. When claims are Subsequently made, a supplemental bill should be prepared and submitted for pre-audit with reference to the bill and the schedule in which the amount was deducted.

P. W. A. FORM No. 75

(Vide para 569 of the P. W. A. Code)

- (1) If any buildings are provided with furniture or fitted with water supply or an installation for sanitation, heating or electric light and refrigerators, the account of rent charged for each building in respect of these services should be kept separate from that of the rent of the building itself and in the Abstract also, the realisations on account of each of these services should be shown separately.
- (2) When rent is assessed for more than one month at a time, the whole amount assessed should be entered in column 8, a suitable remark being recorded in the column for remarks which should be repeated month after month until the next assessment falls due.
- (3) When the rate of assessment for a month is neither the standard rent at 7% of realisation nor the 10% of the occupant's emoluments for the month, the authority for short assessment should be quoted in the remarks column.

The credit afforded in this account consists of:-

- (a) Deposits of contractors as security.
- (b) Contributions for work to be done.
- (c) Sums due to contractors on closed accounts.
- (d) Miscellaneous items of receipts the allocation of which is not known and sometimes errors in accounting awaiting adjustment.
- 2. Contributions for work to be done should be entered in separate Schedules forms 65 and 66 the totals only being shown in this Schedule in one line. The amount of contributions received and placed in deposit on account of each work will be reduced by the amount expended menthly on the work. Expenditure on such works should be detailed in exactly the same manner as ordinary works.
- 3. The amount of contribution for a work will be taken as the grant for the work, unless otherwise ordered.
- 4. The balances must all be on the credit side. No item should ever be debited to this account unless it is covered by a credit previously raised.
- 5. Balances if unclaimed for more than three complete years from the date when the work was finished, should be credited to XLI Miscellaneous Unclaimed Deposits lapsed to Government. (Form No. 76.)

which were not affected by any transactions in the previous month or months of the quarter.

months in columns 5, 7 and 9 should not be totalled, but columns 6 and 8 should be totalled separately for each class.

entered in the Register of Securities. The letters A. B. C. etc. should be entered in the column "How adjusted." If necessary,

affected by the month's transactions. In the case of other months, only items affacted by the month's transactions need be detailed

[Vide paras 567 and 582 of the P. W. A. Code.]

- 1. The entries in this form are copied from the line of "total as per Account" brought out at the foot of the Cash Abstract book. The Opening Balance is taken from the Closing Balance of the last Monthly Account and the Closing Balance of the month from the various Cash Balance Statements (Form No. 5)
- 2. A memorandum of Miscellaneous Receipts to be paid into the Treasury is given at the back of the form. The amount paid should be supported by the treasury consolidated receipt (Form No. 58) and a note should be added at foot, when necessary, explaining the reason for non-payment of any portion of the Receipts into the Treasury within the month.
- 3. It may sometime happen that money despatched to a Sub-Divisional Officer at an out station at the end of the month is not brought to credit by him until the following month. In such a case a note should be made in the Cash Balance entry of the monthly Account as follows:—

6	Includes	cash	in	transit	to			••••
111774	97101174146	. 4 , >		not	yet	received	bу	him
R _e								

- 4. It should be borne in mind that a brief note explanatory of any apparent irregularity or discrepancy or of anything unusual or doubtful, may obviate further references and calls for explanation, Such notes may either be entered in the space for remarks at the back of this form or on a separate explanatory note which should accompany the accounts.
- 5. The items "Cheques of P. W. Officers" is not supported by a schedule, the entry being checked with the memorandum of cheques drawn attached to the schedule of monthly settlement with Treasuries Form No. 51.

CERTIFICATE OF CASH BALANCE.

Certified (i) that the closing cash balance in the account agrees with the total of the balances recorded in the several cash Balance Reports in Form 5 (ii) that no single officer holds an imprest in excess of the sanctioned limit (iii) that all imprest holders who have to furnish security under the rules have either furnished the security or have been exempted by competent authority and (iv) that with the exceptions noted below, all temporary advances out-standing in cash accounts of the second preceding month have since been cleared.

^{*}Here enter explanation of non-payments.

(Vide para 563 of the P. W. A. Code)

- 1. The book collects under the recognized classified heads, the whole cash and stock transactions of the different sub-divisions as well as the adjustment transactions of the whole division.
- 2. The entries from the several sub-divisional Cash Books are first posted, and then the entries from the Transfer Entry Book are posted. After this Receipts and Issues in respect of stock transactions are posted from the Abstracts of Stock Receipts and Issues.
- 3. The following points should receive special attention:—
 - (a) The amount of each cheque entered in a Cash Book should be shown on the charges side under the head to which the payment relates and the total amount of cheques drawn should be shown as a single entry on the receipts side in the column for "Cheques of P. W. Officers."
 - (b) In posting the stock transactions from the Abstracts of Stock Receipts and Issues, debits (and credits) to stock which represent credits (and debits) posted in the Abstracts from the Cash Book and the Transfer Entry Book, and which are separately shown in the Abstracts Vide para 648, should be excluded as these are posted in the Abstract Book direct from the Cash Book and the Transfer Entry Book. In the vertical columns, headed "Stock" should be entered, on the receipt side, the total of the Stock Issues (corrected as above) and on the charges side, the total of the Stock Receipts (also corrected as above.)
 - (c) As the postings from each Cash Book or other document are completed, it should be seen that the total postings on the receipt side agree with those on the charges side, and that further, the totals of the columns headed "Cash from Treasury" agree in respect of Cash Book, and those of the columns headed "Transfers within Division" in respect of whole division, separately for Cash and Stock unless any Cash or Stock be in transit see paras 1058 and 863.
 - (d) Refunds of Revenue appear as charges in the initial accounts, and will therefore be posted on the charges side of the Abstract Book. As they are to be taken ultimately in reduction of revenue receipts, the totals for the month should be transferred to the receipts side as minus entries in columns for the revenue heads concerned.
 - (e) Similarly, receipts which are to be taken in reduction of expenditure on individual works, in progress or on establishment vide statement E of Appendix IV should be posted as receipts in the first instance under appropriate headings, and ultimately transferred to the charges side as minus entries in the columns for the heads under which the charges to be reduced are classified.

Abstracs Book for the month

DIVISION.

f Fasli,

P. W. A. Form No 81.

NOTES (Contd.)

- (f) Finally, it should be seen that the totals of the vertical columns agree with the totals of the relevent schedules, registers etc; or of the corresponding figures there in. Difference should be traced and set right.
- 4. The posting of this book, as well as of the several detailed schedules, the totals of which work up to the entries under each head in the Account-current, should be carried on daily as the transactions occur and not be delayed till the close of the month. Thus the Accountant should have at hand on the 1st of the month, a complete set of the forms of accounts required for the month, and fill in the headings in the various schedules, leaving sufficient space under each head according to the usual requirements of previous months. The opening balance of cash and of the other accounts will be filled into each account as soon as the account of the last month is closed Then suppose the entry in the Cash Book to be "Paid Mr. Ramasawmy, Assistant Engineer, Gulbargah Division," the amount will be posted under "Transfers," in the Abstract and again in detail under the appropriate head in the schedule, of debits to Transfers of the P. W. D. (Form No. 77) and so on with the entries of each day. By this plan the work at the end of the month will be reduced to clittle more than the operations of totalling and agreeing the various accounts and all hurry and delay will be avoided.
 - 5. The corrections advised by the Examiner in the statement of corrections accompanying the Advice of Audit should be added or deducted after the line. "Total as per monthly Account" as the case may be and the figures as per corrected monthly Account brought out in the last line of the Abstract Book.

Divisional Accountant.

^{*}If any individual balance due from a contractor under the heads "Other Transactions" and "Advance payments" has been outstanding for more than three months, the No. and date of the last running account bill or other voucher relating to it should be quoted in the column for "Remarks" with an explanation of the delay in its adjustment.

[Vide paras 566 and 570 of the P. W. A. Oode]

- 1. This form serves as covering docket to the accounts for the month.
- 2. When a voncher does not accompany the accounts, the reason for its omission should be clearly explained and the probable date of its submission stated. With a little care; however, the vouchers can generally be submitted complete with the accounts, and cases of their non-submission should be very rare.
- 3. Blank returns are not required. If there are no transactions and no out-standing balances under any head, the word Nil should be entered in the column headed "No. of documents forwarded." Schedules of suspense accounts must be submitted month after month, as long as there are balances outstanding under these heads, whether there have been transactions during the month or not.
- 4. The Divisional Officer's countersignature to this form will be given only when he personally despatches the accounts.
- 5. Should the requirements of his works render the presence of the Divisional Officer at his head-quarters when the accounts are due for despatch, a matter of inconvenience, the accounts may be forwarded by the Accountant, signed by him "By order." In such cases, an admission of responsibility in Form No. 84 for the accounts will be required of the Divisional Officer as scon as he can examine his books and papers. Until this certificate is received the Examiner, will not finally pass the accounts.
- 6. Unless the circumstances are very exceptional, the Divisional Officer should always sign his accounts himself, after thorough examination of the books and documents from which they have been compiled.

Division:-

List of accounts Submitted to Audit.

ACCOUNTS OF DISBURSER.

То

THE DIVISIONAL OFFICER,

..... Division

I have carefully examined the accounts and other documents detailed on the reverse, being the accounts of this Division for the month of and I have satisfied myself that they are in all respect correct; and all balances have been correctly brought forward from the last month; that the monthly account balances, that all other accounts which open and close with the balance do balance properly; that all accounts and statements which should agree one with the other do so agree, and that with the exceptions mentioned and explained in part II, a schedule, detail or voucher, in proper form is submitted in support of every figure in the monthly account or elsewhere, which requires to be supported by such schedules, etc.

2. In every case in which the word Nil is entered against a return in the list on the reverse, I have satisfied myself that there are neither transactions of the month nor cutstanding balances of previous months in explanation of which such return is necessary

Divisional Officer

Division.

NOTES.

[Vide Para 589 of the P. W. A. Code]

- 1. On the occasion of a Divisional Accountant handing over charge of the accounts of a division, he should carefully reply to the several questions within, and then sign the certificate at foot. The relieving accountant should verify the replies and sign the certificate at foot. The relieving accountant should verify the replies and sign the certificate at the foot of the "remarks by the relieving officer."
- 2. After perusal and testing the correctness of some of the replies, the Divisional Officer should make any remarks which may be necessary in the proper column. He should then sign the certificate at foot, and forward the document to the Examiner. The latter officer will record his orders in the last column, and address the Divisional Officer when necessary.
- 3. When a Divisional Accountant is about to be relieved, he should fill up this form and have it with all subsidiary statements and memos, ready for check by the Relieving Accountant on his arrival.
- 4. The Relieving Accountant in addition to the examination which he is required to make at the time of taking over charge should examine the replies and statements carefully after having taken over charge, and promptly report to the Examiner, any difficulties which he may discover in connection with the disposal of the terms noted therein.

CERTIFICATE No. 3... OTHER SUSPENSE ACCOUNTS AND DEPOSITS.

Certified (1) that the closing balances of the accounts named in the margin (as specified against each) for Aban F., have been reviewed in detail, (2) that no items are included therein which under rule do not pertain to the account concerned. (3) that with the exceptions noted below, none of the items, in view of the period it has been outstanding or of any other circumstances which may diminish the chance of its recovery, calls for any special action to effect clearance, and (4) that, in respect of the exceptions specified.

[†] In nearest rupees only.

CERTIFICATE No. 4.—WORKS ACCOUNTS

A.—General —Certified (1) that the accounts of all works, the actual construction of which is completed, have been closed as far as possible, and (2) that in cases in which the accounts of such works have still to be kept open, arrangements have been made to ensure that no further charges will be incurred without my permission as required.

B.—Meterials—Certified (1) that in respect of each work in progress in the accounts of which the suspense head "Materials' is being operated upon, a report of valuation in Form 37 has been prepared as for as 30th Aban F., and reviewed by me, (2) that the statement below sets forth the calculated value of the unused materials at site of works and the results of the last verification of materials, and (3) that the unused balances represent, in all cases, the value of the materials intended for the actual requirements of the works concerned:—

Serial No.	Full name of work	Paper balance of Materials Account (as per line C. of Form 37) on 30th Aban F.	Value of the difference between the paper balance and the actual balance, as at the time of the last verification	Amount of that pertion of the difference referred to in column 4 which has been adjusted	† Date of last verification	Remarks briefly explaining delays in adjustments, & steps taken to adjust the outstanding balances
1	2	+ 3	† 4	† 5	6	7
		Rs.	Rs.	Rs.		

† In nearest rupees only.

[†] If the materials relating to a work were not verified during the previous twelve months, the reasons for the commission should be recorded in this column.

P. W. A. FORM No. 91

FORM No. 91-contd.

•

C.—Contractors and Labourers:—Certified (1) that the closing balances of the accounts of "Contractors" and "Labourers," as maintained in Registers of Works in respect of works the accounts of which were open on the 30th Aban F., were as detailed below, (2) that the total of the Contractors' balances as shown in certificate (I) has been reconciled by the Divisional Accountant with the total of the balances in the Contractors' Ledger, (3) that the Labourers' balances have been similarly reconciled by the Sub-divisional officers concerned with the relevant records of unpaid wages, (4) that there has been no abnormal delay in closing or adjusting the accounts of contracts which are no longer in operation, (5) that all "Secured Advances" are covered by duly executed indentures in Form 31 which I have seen are in existence in the divisional office, and (6) finally, that none of the other outstanding debit balances represent any overpayments, or have become of are likely to be irrecoverable:—

						,
	}					
	Total					

[†] In nearest rupees only.

NOTE:—(a) No advances are permissible. If in any special case P.W D. obtains sanction of FinanceDepartment and make payments, such advances as well as any unathorized advance made should be entered in colum No. 3.

⁽b) Secured advances means payments for materials at site.

P. W. A. FORM No. 91

FORM No. 91...concld.

CERTIFICATE No. 5...ARREARS OF REVENUE

Certified (1) that the Register of Rents of Buildings and Land, and other records of assessment and realisation of revenue, for the year ending 30th Aban F., have been reviewed in detail and that all immoveable poperties belonging to the division which are available for setting out, and other important sources of revenue, are entered in the relevant registers with full particulars (2) that adequate action is being taken under my orders in respect of revenue which remains unrealized for more than one month by reason of delay on the part of the tenant or other person concerned, and (3) that there are no arrears which have become, or are likely to be irrecoverable.

General Remarks

DIVISIONAL ENGINEER,	Branch,	District.

NOTES.

- I. Indent for forms will be made on printed forms and on form of accounts except these mentioned in the form of indent will be supplied.
- 2. Indents for divisional forms and accounts will be sent to the Examiner either yearly or half yearly, i. e., in Azur or Khurdad of every year.
- 3 Waste of forms should be discouraged. The practice of putting away registers with only 20 or 30 folios used should not be encouraged.
